Kalyan, Maharashtra

CAREER OBJECTIVE

Computer Engineering student seeking an internship to apply programming fundamentals and problem-solving skills in real-world software development. Passionate about building scalable systems and exploring emerging technologies like AI and backend architecture.

EDUCATION

Bachelor of Engineering in Computer Engineering

Datta Meghe College of Engineering, Airoli | Mumbai University

Expected Graduation: 2028

CGPA: 8.25/10

HSC (12th) & SSC (10th)

- HSC (12th): 73.33%, Maharashtra State Board
- SSC (10th): 85.20%, Maharashtra State Board

TECHNICAL SKILLS

Programming Languages: Python, C/C++, HTML/CSS, Java (Basic), JavaScript (Basic)

Backend & Frameworks: FastAPI, Flask, REST APIs

Databases: MySQL, SQLite, Supabase

Tools & Technologies: Git/GitHub, React, Tailwind CSS, Postman, VS Code

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

PROJECTS

CharismaAI – AI Interview Performance Coach | Python, FastAPI, Gemini API, JavaScript

- Built an AI interview coaching platform using Python, FastAPI, and Google Gemini API.
- Implemented video recording and multimodal analysis features for interview feedback.
- Developed as part of GenAI Hackathon Mumbai 2025 (Grand Finalist - Top 75 out of 418 teams).

SkillSync – AI-Powered Career Management System | React, Vite, Tailwind CSS

Live: [skill-sync-ten-ecru.vercel.app](#)

- Created a career guidance web application with roadmap tracking and resume builder features.
- Deployed live application with 23+ career path roadmaps and visual analytics using Recharts.

Regional Food Products E-Commerce (Freelance) | React, JavaScript, WhatsApp Business API

Live: [sahyadri-international.vercel.app](#)

- Built a product catalog website for a food products business specializing in traditional cuisine.
- Implemented WhatsApp integration for order placement with pre-filled product details.
- Created responsive frontend using React with mobile-optimized design.

Smart Café Ordering System | Python, Flask, SQLite, React, QR Integration

- Developing a QR-code based ordering system using Flask and SQLite.
- Implementing order management features for customers and kitchen staff with real-time tracking.
- Building REST API endpoints for CRUD operations and session management.

HACKATHONS & EXPERIENCE

GenAI Hackathon Mumbai 2025 | Google for Developers

December 2024

Team Leader | Grand Finalist (Top 75 out of 418 Teams)

- Led development of CharismaAI, an AI interview coaching platform with multimodal video analysis.
- Selected among top 75 teams from 418+ participating teams representing 1000+ individuals.

VEGA Hackathon | Shah & Anchor College, Chembur

February 2026

Team Leader

- Led development of TripGenie, a smart travel itinerary planner generating personalized trip recommendations.
- Built a React-based travel planning platform with FastAPI backend during a 12-hour hackathon.

Additional Hackathon Participation: Smart India Hackathon 2025 (College Level - Top 50), Codethon Hackathon (DMCE), HackHive Hackathon (DMCE)

College Activities: Media Team Member, Computer Society of India (CSI) Committee, DMCE

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional | Oracle University | October 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle University | September 2025
